

I'm Not Afraid [D]

I'm Not Afraid

G# G#/C D# G#/C

When the thunder's loud
And the lightning's bright
And you don't how
To escape your fright

Say
You go away now
I'm not afraid
I might be little
But my big friend ain't
His name is God
and with him I'm brave
So you go away now
I'm not afraid

C# C/C# A#/C# C/C#

When the nightmares come
And you wake in the night
Know that God is strong
And, for you, He'll fight

Say
You go away now
I'm not afraid
I might be little
But my big friend ain't
His name is God
and with him I'm brave
So you go away now
I'm not afraid

When the lights go out
And you get real scared
All alone in the dark
Even then, God's there

Say
You go away now
I'm not afraid
I might be little
But my big friend ain't
His name is God
and with him I'm brave
So you go away now
I'm not afraid
